Travelers' Aid Reports on Work; Appeals for Funds.

At a recent meeting of the Travelers' Aid Society Mrs. May Van Riper, the executive secretary, who is in charge of the work at the Union station, reported 2,605 travelers had been cared for. Her report showed: Travelers placed in hotels and rooming houses, 960; placed on trains, 353; children placed in the care of the society, 45; cases referred to the Washington agencies, 43; special cases, 116; persons directed to various points of interest, assisted in locating friends and placed on street cars, taxis, etc., 1,088.

It was explained that during the five months in which the Washington Travelers' Aid Society has been organized the workers have cared for approximately 26,000 travelers. The service is free, the financing being voluntary contribution, and the work is handled exclusively by local people who give their services without remuneration.

The directors are now endeavoring to raise sufficient funds for the coming year.
